

TOSHIBA MACHINE

Best Partner of Leading Industries

Invitation to JIMTOF (Japan International Machine Tool Fair), 2018

We are pleased to inform you that JIMTOF (Japan International Machine Tool Fair, 2018) will be held at Tokyo Big Sight (Tokyo International Exhibition Center) in Tokyo from November 1st to November 6th.

At JIMTOF2018, Toshiba Machine's exhibition concept is "Change and Innovations" -Manufacturing Evolving for Productivity Improvement-, we will be offering New products and New technologies for High-Productivity.

When you come to the show, please be sure to visit us.

September 2018

H. Hideo, General Manager of Machine Tool Division

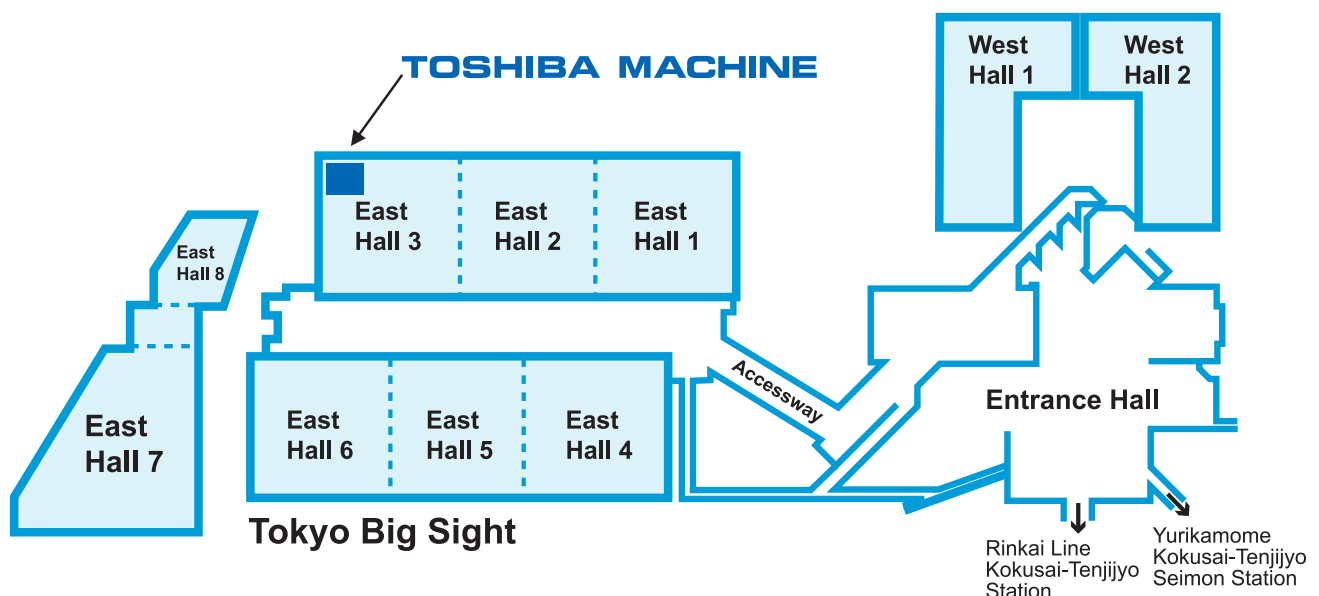

N. Endo, General Manager of Nano Processing System Division

CONTENT

Date & Time:	November 1st (Thu) ~ November 6th (Tue) 6 days		
	9:00 ~17:00		
Venue:	TOKYO BIG SIGHT EAST 3 HALL		
	BOOTH NO: E3031		
Exhibition Item:	Horizontal Type Machining Center	BM-1000Q	1 set
	Turning Center	TMD-13C(B)	1 set
	High Precision Vertical Machine	UVM-700E(5AD)	1 set

LAYOUT

BOOTH NO: E3031

EXHIBITION ITEM

BOOTH NO: E3031

■ Horizontal Type Machining Center

BM-1000Q

Release of the new BM series, full model change from BMC series

- A wide variety of Spindles
- Totally user friendly machine design: space saving, easy to do maintenance and designed for easier operation
- The newest simple CNC is mounted

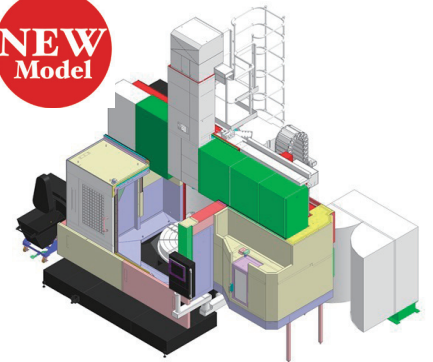

■ Turning Center

TMD-13C(B)

New addition to the TMD series, Now including a slide structure

- Adding a new specification which is constituted quenching slide structure and low friction slide liner
- Support for full-cover specification

It is helpful to do efficient machining using hi-pressure coolant for difficult-to-machine material like inconel, waspalloy and titanium

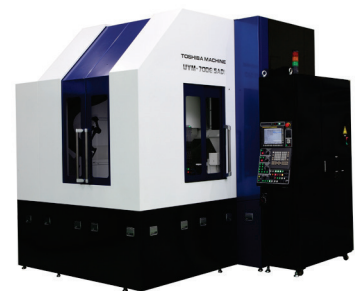

■ High Precision Vertical Machine

UVM-700E(5AD)

Minor change of High Precision 5 axis machine tool UVM-700E (5AD)

- The accessibility and operativity for machining work have been improved by new cover
- Two display for CNC operation and for peripheral function are merged by one big display, 21.5" and improves visibility, operativity and functionality greatly.
